

fotobus society

Declaration of membership for students

The fotobus is a cultural and social program for all students of photography, design, film, art and media. The fotobus—a coach equipped with 32 seats—offers expeditions and research trips to regional, national and international destinations. The central idea behind these journeys is to strengthen international understanding and peace within Europe as well as to encourage cultural and academical exchange. Students are supported in building exceptional international contacts and gaining practical experiences.

The fotobus e.V. membership is free of charge for students.
